

Wireless keyboard HKB-W03

The Canyon HKB-W03 wireless keyboard is your ticket to freedom from cords and clutter. This keyboard is all about sleek design and smart functionality, giving you the power to work and play with ease.

With a full-sized layout and 105 keys, including handy multimedia shortcuts, this Canyon keyboard is your trusty sidekick for any task. The membrane switches provide a satisfying typing experience, ensuring that every keystroke is smooth and quiet.

Plus, the slim and ergonomic design of Canyon HKB-W03 makes it so easy to type on. We used a matt UV finish and laser engraving to keep it looking mint for as long as possible.

Powered by a single AAA battery, this keyboard is ready whenever you are. The tilted feet with a rubberized base offer stability and comfort so you can focus on your work.

Experience seamless wireless typing with HKB-W03. It's time to take control of your workspace!

FLUID TYPING EXPERIENCE

The low-force key switches provide a delightful audible and tactile response with each keystroke. The membrane key switches ensure quiet operation of the keys, making it ideal for use in quiet environments or shared workspaces.

MADE FOR COMFORT

Slim yet full-sized with 105 keys, including a numeric keypad, this keyboard offers a comprehensive typing experience. 11 multimedia keys allow for easy control over multimedia functions.

WIRELESS CONNECTION

Improve your workflow and get rid of the wires. Just plug in a 2.4 GHz USB dongle and start typing... even from across the room!

COLOR STYLES

This keyboard comes in two color combos: light gray with orange accents and dark gray with blue accents.
