Make your move.

Smart mobility, evolved. The Yoga Slim 6 delivers uncompromising mobile experiences that combine smart performance with spectacular lightness and military-grade durability. Accelerate your work and creativity with a whole new level of speed powered by AMD Ryzen™ 7000 Series processors on a brilliant 14" up-to-OLED 16:10 display for deeper immersion.

Find your flow

Find your flow with a system that surpasses its weight class while keeping you light on your feet. Accelerate your work and creativity with a whole new level of speed and power with AMD Ryzen™ 7000 Series processors. Go further with smart battery management for the freedom to work and play untethered.

Thin and rugged

Answer the call to glorious adventure and unbridled creativity with the Yoga Slim 6, a lightweight powerhouse designed for digital creatives who never stop seeking. Built with MIL-STD 810H military-grade ruggedness, this all-metal aluminum chassis is tough enough to handle long wanderings and rough handling. The thin and durable body include a raised camera notch for easy opening.

Perfect vision

Enliven your vision and power your creations with an 14" up-to-OLED display optimized by Dolby Vision® technology. Immerse yourself deeper into the story with a taller 16:10 aspect ratio and optional touch support for a more natural and intuitive experience. And keep your eyes from straining after long hours with TÜV Hardware Low Blue Light certification.

More intelligent, intuitive experiences

Let the world feel your AI-enhanced potential with the Lenovo AI Engine+, whose intuitive sensing anticipates your needs and finesses you through any situation with boosted performance, enhanced display, superior voice and security, and stable connectivity. Push your device's limits and secure your data and system with integrated security. Upscale your video conferencing with noise cancellation and background blur, and jumpstart your day with the Flip-to-Start.

¹ All battery life claims are approximate and based on two methods of testing: MobileMark® 2018 battery life benchmark and continuous 1080p video playback on the latest update of Windows 10 (with 150 nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.

² Height is calculated using T2 measurements and should be considered 'as thin as'.

³ Bluetooth® version depends on OS.

⁴ The actual transfer speed of the USB 3.2 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, will be slower than a speed of 20 Gbit/s.
